What is the Lava Dome?

A free database exclusively for members of the arts community. It has listings for...

Apartment rentals, sublets, house swaps, house-sitting and billeting

Workshops & performances

Equipment for rental or sale

Venues for rehearsals, meetings and performances

The complex block contains four red circular icons on a black background. From left to right: a white key, a white lightbulb, a white wrench, and a white tent. Below each icon is a list of services in white text.

We also send out a monthly newsletter with new listings and brief messages about the arts community that would interest our subscribers. Our strength lies in the exclusivity of the website to arts workers. We're a community, and we're accountable to one another. This ensures a quality control that general Internet housing sites, such as Craigslist or couchsurfing.com do not offer.
